

Windsor-Essex on Watch

348 St Mark's Rd, Tecumseh, ON N8N 2H8

February 19, 2026

Mr Jerry V. DeMarco
Commissioner of the Environment & Sustainable Development
Office of the Auditor General of Canada
240 Sparks Street
Ottawa ON K1A 0G6

Dear Commissioner DeMarco:

We are a citizens' advocacy group that raises awareness and promotes action on environmental and climate issues in Windsor-Essex.

Our group is pleased to join Fluoride Free Canada's petition in regards to Health Canada's classification of fluoridation chemicals as "water treatment chemicals", their eventual discharge into the water at concentrations that disturb fish habitat in violation of *The Fisheries Act*, and the absence any analyses or tests on the effectiveness, safety, or the sanitary quality of these products used to prevent and reduce tooth decay.

Yours sincerely,

Dr. Margaret Keith
Founding Member, Windsor-Essex on Watch (WOW)
